

Hello newest ARGs Dragons!

I look forward to meeting you all and having a beautiful year of learning together. I believe learning should be fun and work, ideally simultaneously. For your summer reading, please choose from one of the titles below. I have provided links to their descriptions on Amazon for you to read reviews to decide which one looks most interesting to you. There is a range of contemporary to classic, as well as a range of reading levels. Please choose a book that you have not read before, and one that you are comfortable with. You will need a copy of the book when school begins, as we will be writing about it once school starts. Please just read the whole book over the summer, with no written assignments necessary.

Ray Bradbury *Fahrenheit 451*

Tayari Jones *Silver Sparrow*

Carson McCullers *The Heart is a Lonely Hunter*

Brittany Morris *Slay*

Please kick back, relax, and read! I am fine with you listening to an audio-version, but you will need a kindle or hard copy of the book for your written analysis of it (again, that is after school begins--no need to write anything just yet!). Feel free to email me with any other questions @ sluong@args.us. Also, feel free to read more than one!

See you soon!

Ms. Luong
